Evaluation Form

Title:

Author/Editor:

Proposed Series:

Thank you for doing a preliminary evaluation of this manuscript. In order to help us better understand its merits and/or potential, please select one of the following:

- o Provisionally accept the proposal and engage the author, conditional on the final manuscript being approved by the independent peer-reviewers.

- o Reject entirely, for reasons of lack of sufficient quality.

- o Reject for this series, since it falls outside its remit (please explain why; we will assume that you judge the quality may be adequate and could then be sent to an alternative series' editorial board).

- o There is inadequate information on which to make a judgement; please send us . . . (e.g., a sample chapter, a recent article by the author on the same topic).
